# How to check out a Laptop, Calculator, or Jetpack

The college's library provides a variety of devices for checkout that will assist you with your classes. This article will help you request what you need from the library.

Start by making sure you have your student ID set up using the [ID123 app on your mobile phone.](#)

The barcode on your ID in the app is your library card and can be scanned by the library to check out items.

Once your ID is set up, complete the Equipment Request Form that is available in the **Student Apps** card within your mySCC homepage.

Once your request has been submitted, you can come to the library's circulation desk at the main campus to get a laptop, jetpack, and/or calculator to use for the semester!
